itsjustabetterhouse.com

Welcome to

Golf is fun at Nutters Crossing. The ninety degree rule is in effect most of the year which will enable you to ride to your ball. Beautiful lush fairways roll over gently sloping hills, past eight water hazards and through a maze of over 50 bunkers, to rolling greens built to USGA specifications.

And don't be fooled by the relatively modest back tee yardage. With water lurking on no fewer than a dozen holes, even the most advanced player will be severely tested. Nutters Crossing is the focal point of an upscale residential community located just minutes from Ocean City. Consistently recognized as one of the area's best-conditioned courses, Nutters Crossing offers two distinct layouts: the front side, which is wide open, gives players the chance to let out a little shaft on the tee, while the back side trails through woodlands and will provide a test of accuracy all the way home.

For your next tournament, group outing or just a relaxing day of golf, come and experience one of the Eastern Shore's best kept secrets. Before or after your round, relax in our classic colonial brick clubhouse with dining facilities and pro shop, or make use of our extensive practice facilities.

Nationally known golf course architects Ault, Clark & Associates have transformed a typically level Eastern Shore site into a beautiful rolling landscape.

Using This Yardage Book

Before you start your next round of golf take a moment to look through this yardage book. Pay attention to the hazards, playing tips, and basic yardage information to help yourself get a feel for the course. When you go to play each hole review the playing tip for helpful hints. Look for landmarks like trees, bunkers, or curves in the fairway to align your shots with and reference the yardage measurements as a tool to help you decide which clubs will be best to use. As you play the hole, you can make notes on the pages of this book for yourself. Next time you come to play our course, you will have a personalized guide to playing your best!

Course Rules

- We are a non-metal spike facility.
- USGA rules govern all play.
- Local rules will be posted.
- Please keep up with suggested pace of play.
- Golf course etiquette and proper attire required.
- Alcoholic beverages must be purchased at Nutters Crossing.
- If you stop to eat after nine holes, you will forfeit your place on the course.

Golf Outings

Nutters Crossing entertains numerous tournaments including charity events and business outings. Whatever your next event, our experienced golf staff is happy to host your next tournament. As part of our extended service, we will custom design scorecards, cart signs and a rules sheet for your group. We will also record your scores on professionally prepared scoresheets and provide you with a summary of the results.

Furthermore, at your request, Nutters Crossing will draft a proposal that will consist of all pertinent information including golf rates and rates for food and beverages.

Complete and submit the request form below for more information on how we can help with your next group outing or golf tournament. We are also happy to send you a proposal.

Tournament Amenities

- **Driving Range**
- **Instruction (private and group)**
- **Closest To Pin and Long Drive Access Available**
- **Awards and Merchandise:** Our Pro Shop provides a large selection of merchandise to choose from. Gift certificates are available and discounts are given based on volume.
- **Logoed Items:** Our professional staff can have your logo or company name put on many different pro shop items.
- **Food & Beverage:** The Links Restaurant offers many different selections for food and beverages to complement your day. Our on-course cart service, grill and patio areas all provide the perfect means for making your day enjoyable.
- **Party, Reception & Banquet Facilities**

THE 1ST HOLE

The water on the right makes the first a tough starting hole. Make sure you aim left to keep your drive out of the water. Keep your approach shot below the hole because the green slopes from back to front.

THE 2ND HOLE

Accuracy off the tee is a must. Use the fairway bunker as an aiming point and you may want to use a 3 wood or utility club off the tee for accuracy. If you hit the fairway, the hole becomes a good birdie or par chance.

THE 10TH HOLE

The tee shot on ten can be played two ways. If you are a long hitter you can take it over the trees on the right and leave yourself a long to mid iron into the green. For the average golfer you are going to have to take it to the left of the trees on the right and that will bring the tall grass on the left into play. When hitting your approach shot to the green make sure to avoid the bunkers and don't go over the green.

PAR 5
HCP 14/2

THE 11TH HOLE

This is one of the most difficult driving holes on the course. It is a narrow fairway with a pond and mounding on the left and on the right there are trees and out of bounds. Your approach shot doesn't get any easier. The green is very narrow and you want to avoid missing it to the right. The terrain on the right slopes away from the green towards the out of bounds.

THE 13TH HOLE

The thirteenth is the signature hole at Nutters Crossing GC. This hole will test every shot. When hitting your tee shot you have to be mindful of the trees to the right and tall grass to the left. Try and position your tee shot down the left center of the fairway to avoid the large tree that may block your second shot. The green is two tiered and shallow. It is protected by a pond and a bunker short of the green. Out of bounds comes into play if you hit the ball over the green.

Golf Community

An 18 Hole Golf Course... Salisbury's Most Exciting New Community

Picture a custom-built home overlooking the lush fairway of an elegant golf course...beside one of its sparkling ponds... or along a stream...

Nutters Crossing offers you all of these beautiful prospects, and many more, in an exclusive community which incorporates a professionally-designed 18-hole golf course.

Nutters Crossing also enjoys the perfect Eastern Shore location. Just 1.5 miles from downtown Salisbury, a short drive from Ocean City, it is central to the shore's business and recreational activities, convenient to all major traffic routes and within minutes of the Salisbury-Wicomico County Regional Airport.

Thomas H. Ruark, Inc., one of the areas leading custom builders, and the nationally known golf course architects Ault, Clark & Associates, Ltd., have combined their talents to realize a very special setting, a very special community. The site plan gives you an idea of the variety and scope of Nutters Crossing. The spacious homesites (3/4 acre) offer wooden or cleared settings. Choose from one of our many house plans and let us modify it to your specifications; or we will work from your architect's plans. Either way, we will complete your home with the quality materials, workmanship and detail that characterize the area's finest custom building.

Reading the Greens

Putting is the downfall of many otherwise great golfers. One thing that commonly trips people up is the grain of the green. The grain refers to the direction that the grass is growing, generally towards the setting sun. Once you are on the green take a look at your ball and the surrounding grass. Move in a circle around your ball until you notice the grass looks shinier or lighter behind your ball; this indicates you are looking in the direction of the grain.

When putting against the grain your ball will move an average of 25-50% slower; with the grain, that much faster; and across the grain (neither with or against but rather at an angle) your ball is likely to veer to the side regardless of the slope of the green. Although it may take some practice, learning the grain of a green before you putt is sure to take a stroke or two off your final score.
